Pair this headset with an adaptor or amplifier according to your requirements.

award-winning minimalist design - **710 Series**

There are plenty of headsets in the market, some are durable but bulky, while some maybe lightweight but breaks easily. Finding a product with the right-balance may not be a simple task, yet finding a product that also looks good is even more difficult.

Accutone® is proud to present the award-winning 710-series business telephone headset, a product combining both style and function. Comes in both monaural and binaural versions, the 710 is the favorite choice amongst young professionals.

compatible with both system and analog phones.

Hiding behind a simple and minimalistic design, this headset is equipped with a unique-designed voice-enhanced loudspeaker and a high-grade noise-cancelling microphone. The internal structure is well-built to withstand the toughest conditions, surpassing various reliability tests with flying colors.

The 710 headset is highly comfortable and very lightweight, weighing only 2.2 oz.

Acoustic Shock Protection and Quick Disconnecting Cable also included.
