DW1 Wireless Headset

DECT System for Telephones & PC

Take Calls from Deskphones & Softphones Wirelessly!

True Mobility - One wireless headset for all your office communication needs. The DW1 connects to both your deskphone and PC via USB, allows full control of answer/end calls and volume controls directly on the headset.

With ECO Mode, DW1 automatically adjusts its power consumption depending on the distance between the headset and the base unit. Eight hours of continuous talk-time, and 400m range makes this one of the best wireless product of its class.

Comes in both monaural and binaural over-the-head versions, DW1 has superb audio reception and noise-cancelling microphone designed for both call centers and offices.
